

Commitment campaign Charter of local and subnational governments of Africa on Migration

Call for Adherence to the Charter of local and subnational governments of Africa on Migration

The issue of migration has become an issue of concern for both national States and the international community. Local and regional authorities are generally the starting point and destination for migration flows, and are therefore called upon to play a major role in migration management. It is for this reason that, as a prelude to the United Nations Conference held in December 2018 in Marrakech, which led to the adoption of the Global Compact for Safe, Orderly and Regular Migration, the community of African local and regional authorities meeting on Migration Day held as part of the eighth edition of the Africities Summit in November 2018 in Marrakech adopted the [Charter of local and subnational governments of Africa on Migration](#).

The purpose of this call is to ask African cities and territories that so wish to express their support for this Charter and to undertake to implement the provisions it prescribes.

To do so, interested cities and territories are requested to complete the online form below, or send it back in PDF format as soon as possible and no later than 30 June 2019 to the UCLG Africa General Secretariat for the attention of Mr Lionel Nzamba-Nzamba, Mail Lnzamba@uclga.org with a copy to secretariat@uclga.org.
