Our Repository

2009-2023, it will be more than fifteen years since the Members of UCLG Africa and the participants to the 5th Africities Summit edition, held in Marrakech, in the Kingdom of Morocco, from December 16th to 20th, 2009, requested, through the following Resolution, the creation of a Centre of Excellence for the empowerment, capacity building and training of local elected officials and executives of Local and Regional Governments in Africa, which has since become the African Local Governments Academy (ALGA).

An important feasibility study was conducted with the support of the Moroccan Ministry of the Interior of Morocco to identify the eco-system of interest to the Academy as well as the main missions it should undertake.

The Academy has been presented at several events, including to the 6th Africities Summit in Dakar (2012) and the 7th Africities Summit in Johannesburg (2015).

The Academy became operational in 2016.

ALGA draws its legitimacy and its purpose not only from Priority 3 of the GADDEPA which calls for the “Development of Human Capital, Capacity Building and Intellectual Exchanges”, but also from the new strategic orientations of UCLG Africa (GADDEPA 2.0) for 2021-2030, in particular the Pillar 2 on “Capacity Building of Local and Regional Governments and their National Associations and Knowledge Management”.

Our Strategic Vision

The strategic vision of the Academy of UCLG Africa is to invest in the most valuable asset of Local and Regional Governments, namely their Human Capital, in order to transform the Leadership at the level of these entities, to allow their employees to gain professionalism and to be able to anchor the performance at the local and regional level in the Continent.

Our Core Values

Drawing its Values from UCLG Africa’s Statutes and the Code of Conduct, the Academy pledges to anchor the values of Good Governance, Participation, Accountability, Transparency, Diversity, Equal Opportunity, Merit, Performance and the quest for Excellence and Quality Assurance.

Our Missions

1. To serve as a Center of Excellence in empowerment, capacity building and training targeting the Human Capital of African Local and Regional Governments;
2. To accredit and certify institutions and training courses targeting the Local and Regional Governments, including Local elected officials and Local Managers/employees;
3. To propose Training Cycles for the Territorial Managers;
4. To contribute to the modernization and upgrading of the Human Resources Management of Local and Regional Governments;
5. To structure, professionalize and reinforce the Professional Networks of Territorial Managers of Local and Regional Governments;
6. Set up an e-Learning Platform to facilitate access to training within Local and Regional Governments;
7. To promote South-South Cooperation in learning, training and capacity building;
8. To design and deploy an innovative and diversified training offer;
9. To develop expertise and research on the professions of Local and Regional Governments;
10. To promote and secure funding for learning, training and capacity building for the benefit of locally elected officials and employees of Local and Regional Governments.
The Governance of the UCLG Africa Academy

ALGA is a Department within the organization of UCLG Africa. It is administered by the Executive Committee of UCLG Africa, extended to the Bureau of the REFELA. Its functioning depends on the hierarchy of the Secretary General of UCLG Africa, and it is managed by a Director appointed by the Executive Committee of UCLG Africa.

The Academy also relies on an Academic Board that meets at least once a year, composed of Representatives from its Network of Anchoring Institutes and Partners. The Academic Board has been able to hold annual meetings since 2015 until 2021 (online and hybrid due to the Covid-19 Pandemic).

The Context of our Action and Commitment

Decentralization, which represents an irreversible movement throughout the world and especially in Africa, is currently in a very particular context marked by major challenges and immense opportunities.

Several global and continental commitments have been made that will have to be honored, implemented and above all territorialized and localized at the sub-national level in Africa.

This is the case for the 2030 Agenda for Sustainable Development with its 17 Sustainable Development Goals (SDGs), the Climate Agenda, the New Urban Agenda, the Sendai Framework for Disaster Risk Reduction, and the Addis Ababa Financing Agenda (AAAA).
The African Agenda 2063 is also challenging UCLG Africa with its 7 Aspirations:

1) A prosperous Africa based on inclusive growth and sustainable development;
2) An integrated, politically united continent anchored in the ideals of Pan-Africanism and the vision of the African Renaissance;
3) An Africa of good governance, democracy, respect for human rights, justice and the rule of law;
4) An Africa living in peace and security;
5) An Africa with a strong cultural identity, a common heritage, and shared values and ethics;
6) An Africa with people-centered development that builds on the potential of its people, especially women and youth, and cares for the well-being of children;
7) An Africa that acts as a strong, united and influential actor and partner on the global stage.

Decentralization in Africa therefore requires greater and sound mobilization and a dynamic of transformation at all levels in order to deal with the multiple and diverse challenges facing African Local and Regional Governments, whether it be the challenge of political leadership, local democratic governance, rampant and poorly controlled urbanization, climate change, migration, youth unemployment, scarcity and/or waste of resources, discrimination, inequalities or vulnerabilities, etc...

Today more than ever, African states and their Sub-National entities are called upon to invest in the most important resource for any organization: its Human Capital, their Human Resources, particularly through a real dynamic of awareness raising, empowerment, learning, education, training, capacity building, peer learning, and knowledge sharing.

**Article 16: Efficiency**

1. Local Governance Administration.
2. Resource mobilization and utilization
   a) Local governments shall be provided with the required human, financial and technological resources to effectively and efficiently discharge their responsibilities.
3. Capacity Development.

**Extract from the Resolution A/RES/72/235 adopted by the United Nations General Assembly on December 20, 2017 on Human Resources Development**

“Stressing that human resources development lies at the heart of economic, social and environmental development and that health and education are at the core of human resources development,

«Stressing also that human resources development is vital to the efforts to achieve the internationally agreed development goals, including the Sustainable Development Goals, and to expand opportunities for people, in particular for the most vulnerable groups of the population”.

Support & professionalization of UCLG Africa Professional Networks and Observatories

The Academy offers learning opportunities, peer learning, training, awareness raising, and capacity building to the different professional networks and Observatories set up by UCLG Africa.
**Organization of Study Tours**

The study tours represent another strategic lever in the methodology of the Academy, allowing peer learning, exchange of good practices and innovations, establishment of cooperation and partnership relationships, exchange of knowledge and know-how, provision of documentation and tools, especially in relation to Decentralization, Local Governance and Local and Territorial Development. These Study tours also allow for the establishment of bonds of friendship and camaraderie.

The Academy of UCLG Africa organizes Study tours in Africa or at the international level, targeting members and networks of UCLG Africa, local elected officials, staff of Local and Regional Governments, partners of ALGA, students or various components of civil society.

| Study Tours organized for students of the American University Florida International University (FIU) since 2016 until 2019 |
| Study Tour organized for the students of the American University in Cairo, Egypt (AUCE) in 2017. |
| Study Tour to Morocco organized for a Delegation of the League of Libyan Municipalities From September 13th to 21st 2019. |
| Study Tour to Morocco of a Delegation of the Association of Local Authorities of Nigeria (ALGON) From October 31st to November 5th, 2019. |
